

ComicCraft – AI Comics Storyteller

Project Planning

- Phase 1: ideation and problem definition.
- Phase 2: requirements and technology selection.
- Phase 3: interface and architecture design.
- Phase 4: implementation of AI, routes, templates and layout.
- Phase 5: testing and correction.
- Phase 6: documentation and final demonstration.
- Deliverable: a working ComicCraft prototype with supporting project documentation.

Project: ComicCraft – AI Comics Storyteller | Demonstration story: The Dragon in Our School
